

Welcome to EXTOL University 2016

A Message from EXTOL CEO, Tony Baran:

I am very pleased to welcome you to the 18th EXTOL University event here in Las Vegas. This year's program includes new opportunities to learn, to grow your skills, and to increase your value as a contributor to your company's growth and success. And on top of all of that – have fun, too!

As you explore new ways to leverage your integration software, we invite you to spend time getting to know your Cleo team. Like EXTOL, Cleo is committed to helping you get the most out of your software, and your training experience at EXTOL University. So please do not hesitate to ask any staff member for the help or assistance you may require.

I hope you have an educational and enjoyable experience!

A handwritten signature in black ink that reads "Anthony Baran".

Here's what you can expect during the week:

Registration and Welcome Reception – We will kick-off this year's event on Monday night at 5:30 pm in Gràcia Commons, located on the 3rd floor near the West End Tower elevator bank. Look for signage to direct you.

Registration will take place during the Welcome Reception at the Gràcia Registration Desk, which is located within the Commons area. Here, you will receive Welcome Kit with information to assist you in getting the most out of your participation at EXTOL University. This includes the Course Schedule with map, Session Abstracts, giveaways and more.

Professional Services Workshop/Solutions Center – Between the hours of 1 pm and 5 pm on Monday, EXTOL will have Gràcia 8 filled with technical resources, available on a first-come, first-served basis, waiting to assist you with any request you might have. Simply show up and identify your need, and you will be aligned with the appropriate technician.

After Monday, Gràcia 8 will be used as the Solutions Center. This is the “control room” for the program, where you can engage a product expert, take in a product demonstration, or get project advice.

Flash Drives – We will be providing USB flash drives during the Welcome Session on Tuesday morning. These drives contain session materials and test environments, which you will be using throughout the week. Please bring these with you to all sessions!

WiFi Access – WiFi access will be provided throughout the resort. Connection instructions for the meeting space will be provided in your Welcome Kit.

Free Nights – Being as we’re in Las Vegas, we’ve decided to let everyone have fun exploring the Strip. We won’t be hosting a special event this year, but look for a **\$50 Cosmopolitan gift card** in your Welcome Kit to have dinner (or a spa treatment) on us!

Questions or Concerns? – The Registration Desk in the Gràcia Commons area will be staffed all week. Please feel free to stop by with any questions, comments, concerns, etc. that you may have.
